

15th. October 1947.

Dear Bartlett,

During the recent series of conferences at Washington I took the first steps towards getting up your name for membership of the Institute. As you will see by the enclosed form I have left all the personal particulars blank in the hope that you will fill them up for me. I will make it my business to find the

further necessary support, but of course I should be interested if you care to suggest the names of possible supporters.

Yours sincerely,
