DEPARTMENT OF PHYSICS

February 1, 1949

Dear Fisher:

What would be your reaction if you were invited to come over here for a few months next year to give some lectures to the mathematicians, biologists and others interested in your work. The invitation would come from the School of Graduate Studies and would offer you a fee that would cover all your expenses and leave you with something in hand. If you think that you might be able to accept such an offer formal negotiations could be started but I thought it a good thing to write to you first unofficially.

I hope that you and your mice and your family are in good health and spirits. Margaret sends her love.

Yours sincerely,

Edward Bullard
