

14th November 1933.

Whately Carrington Esq.,,
Calandstrat, 64,
Rotterdam.
Holland.

Dear Whately Carrington,

I could see you with pleasure on the morning of November the 29th, if you think it will be useful. There is no earthly point in using the analysis of variance if your data are not suitable for it .

I should be quite unwilling to influence your judgement on this point.

Yours sincerely,
