

30th April, 1958.

My dear Luca,

Thanks for your note. I shall not myself be in Montreal but I hope you have an enjoyable meeting. I had hoped to see you in Brussels but perhaps you have given up any intention of going to the Adolphe Quetelet meeting in September.

Of course the twin data will be attacked on the grounds you allege, as indeed fanatical objection will be brought against anyone who questions the current propaganda. It is not any one bullet that will bring it down but the fact is that all the side-lights alike are antagonistic.

Sincerely yours,
