Professor R. A. Fisher,
Department of Zoology,
University of Cambridge.

Dear Professor Fisher,

May I ask you to be kind enough to look through this manuscript which I am submitting to the Bulletin of the Association of Clinical Pathologists. It is rather long and elementary but it is designed to be read by people with no statistical knowledge and for that reason I fear I have quoted rather extensively from your books. I hope the acknowledgment is sufficient and I hope you will not object to these quotations. I am not sending all the figures I propose to submit because I want the editor to have them as soon as possible and I have only one decent copy of each. I am sending three of my earlier curves. There is no need whatever to return any of these papers.

Thank you very much,

Yours sincerely,
- George Dickson.
