CALCUTTA,  
India.

Dear Professor Mahalanobis,

I was very glad to hear from you, as the progress of your work has interested me greatly.

Your experience of Prof. Pearson is, I am afraid, typical. I am not directly connected with ethnography, though the subject interests me greatly. I have, therefore, consulted Mr Udney Yule, and at his suggestion am sending your paper to the Royal Anthropological Institute, with my suggestion and Yule's support for publication.

I hope the Institute will accept them for publication, but of this I cannot be sure.

Yours sincerely,
