

November 20th, 1935

Dear Miss Barnard,

I am enclosing a copy of your paper on "The secular variations of skull characters in four series of Egyptian skulls", to which, for convenience, the press copy of one of mine is attached. I have been through yours to get rid of ^a the great number^{the} of difficulties about notation; but I am afraid it will need very careful looking through by you also, if we are to get finally a clean copy.

Will you also make out a series of references to be printed at the end, with full titles, so as to avoid the foot notes used at present. I shall be glad to have both press copies back as soon as possible, but you will find also a spare copy to keep for the time, on which it will be as well to enter all your proof corrections.

I think you will like the look of your paper.

Yours sincerely,
